

Polar Service Centers Expands Presence in Salt Lake Region

Houston, TX – (March 18, 2021) – Polar Service Centers (PSC), the nation’s largest network of commercial parts and repair facilities dedicated to the tank trailer and tank truck industry, announces it has acquired Mountain States Trailer, a full-service tank trailer testing and repair facility in North Salt Lake, Utah.

“With this acquisition, we have doubled our capacity in the Salt Lake market, locating closer to our energy sector customers,” stated Jerry Cignarella, President, Polar Service Centers. “This latest expansion is the result of our continued focus on growing our industry-leading network, bringing our full suite of services to customers across the country.”

This new, full-service, 19,392-square-foot facility provides a range of services, including testing, complete refurbishments, remounts of truck tank bodies and rebuilds of pull trailers. Up-fitting services include fuel delivery units for commercial or retail. The North Salt Lake location also has a walk-in parts counter that provides convenient access to fast-moving parts in the energy sector.

“We chose this location because it’s only minutes away from four major refineries, and we have loading racks directly across from the facility,” said David Martinez, West Region Vice President. “We’ll be adding personnel to help with drop-in business and ensure we can perform timely repairs for our customers.”
